

These practical training sessions are designed for high school teachers to strengthen the capability of teaching staff across Queensland. We support teachers in developing real-world skills through industry-aligned, hands-on professional learning.

ALL SESSIONS ONLY **\$420**

Our current programs focus on three key areas: **ITD Woodwork and Construction for Teachers, ITD Metalwork and Engineering for Teachers, and ITD Support and Technology.**

Each program delivers full-day workshops in authentic school workshop environments to build confidence, capability, and practical expertise.

Session dates for this term are as listed below:
