

These practical training sessions are designed for high school teachers to strengthen the capability of teaching staff across Queensland. We support teachers in developing real-world skills through industry-aligned, hands-on professional learning.

ALL
SESSIONS
ONLY

\$420

Our current programs focus on three key areas: **ITD Woodwork and Construction for Teachers**, **ITD Metalwork and Engineering for Teachers**, and **ITD Support and Technology**.

Each program delivers full-day workshops in authentic school workshop environments to build confidence, capability, and practical expertise.
