Introduction

Short Courses

Blue Dog Training's Short Courses provide the essential foundation for a thriving career in construction. Tailored to enhance your skills and broaden your expertise, these courses are designed to meet the needs of a dynamic and evolving industry. Whether you're updating your current knowledge or acquiring new skills, our Short Courses equip you with the critical competencies and practical experience needed to excel in the construction industry.

Blue Dog Training Model

The training you will undertake for this course is nationally accredited training. Blue Dog Training's flexible online course allows you to fit your study into your work, family and social commitments. You work through the course at your own pace by downloading an assessment workbook directly from our website. A trainer is also available to support you every step of the way.

What to Expect

Our Short Courses are suitable for builders, site managers, forepersons and other construction industry professionals using specialised knowledge and skills preparing you to complete routine and non-routine tasks. The training also equips participants to use their own judgement to deal with predictable and sometimes unpredictable problems.

Please take time to read the information in this document and the Blue Dog Training [Student Handbook](#), as it is very important you select the right course for you.

Training & Assessment

The program is designed to progress the learner through competency performances. The learning and assessment materials are separated into segments, as follows:

1. Undertake directed self-paced study and research
2. Complete and submit the assessment activities outlined in the Assessment Workbook developed for each unit of competency
3. Undertake an assessment conversation with a Blue Dog Training trainer and assessor.

You will have a maximum of **three (3) submission attempts** to successfully complete the assessment activities for this course. If you are not deemed competent after the third attempt, you will be required to re-enrol in the program.
